

Security & Regulatory Compliance

In a world where security threats redefine corporate risk, regulatory compliance and legal liability on a daily basis, no single product or service can assure a secure information infrastructure or address all of the possible threats, requirements and liabilities a company faces. An effective security program demands a combination of processes, practices, trained people and technologies.

Maintaining effective security is a continuous process that:

- Identifies assets
- Analyzes threats
- Defines acceptable levels of risk
- Implements cost effective solutions
- Is relentlessly monitored & improved

Consultant Services

Micro Strategies Inc. provides a wide range of consultancy services in information security, business continuity, regulatory compliance, consumer privacy, and information survivability. Our security practice helps clients establish a secure environment consistent with their unique business objectives. Our services include:

- Security risk identification and assessment
- Security cost - benefit analysis
- Security program development and risk remediation
- Vulnerability management
- Penetration testing, detection and prevention
- Audit and testing
- Continuous monitoring and program improvement
- Security Awareness Training

We can also help clients comply with their identified legislative and regulatory requirements such as Sarbanes Oxley (SOX), Gramm-Leach-Bliley Act (GLBA), Securities and Exchange Commission (SEC), National Association of Security Dealers (NASD), and the Health Insurance Portability and Accountability Act (HIPAA.)

Whether you are interested in a simple security audit or need to implement a comprehensive security, privacy or business partner trust program, we can assist you. Micro Strategies provides a tailored IT security solution based on the unique environment in which your company operates. Our extensive experience in both IT infrastructure and regulatory solutions enables us to provide a cost effective Security Assessment and the associated consulting services.

We provide seamless, end-to-end IT solutions. Our business process knowledge and experience enables us to provide a full array of security services.
