About Alfresco

Alfresco is leading the convergence of ECM and BPM and helping create efficient, connected processes which present content in context. More than 1,800 companies in 195 countries rely on Alfresco, including leaders in financial services, healthcare, and the public sector. A global partner network and thousands of open source developers are ready to help you use it to accelerate your digital transformation.

Alfresco's open and tightly integrated ECM and BPM platform is simple, smart and secure. Align people, content and processes to regain control of critical business content, strengthen compliance and optimize processes - making collaboration easy for employees, partners, and customers.
